

FORD CHAIN BLOCK & MFG. CO.

SECOND AND DIAMOND STS., PHILADELPHIA, PA.

Manufacturers of the Ford Tribloc Chain Hoist, Screw Gear Hoists, Differential Hoists and Plain and Geared Trolleys

THE FORD TRIBLOC CHAIN HOIST

The Ford Tribloc Chain Hoist is built in sizes from one-half to forty tons capacity. It is equipped with the patented Loop Hand-Chain Guide which protects the working parts, keeps the chain from gagging, and enables you to operate at any angle and at any speed you may wish to. It has steel working parts, planetary gearing (which is enclosed in a dust-proof steel case), and a $3\frac{1}{2}$ -to-1 factor of safety in its weakest part. Eighty per cent. of the power applied to the hand-chain of the Tribloc is converted into lifting energy.

PRICE LIST—TRIBLOC CHAIN HOISTS

Capacity in Tons	Price Complete	Regular Hoist in Feet	Extra Hoist Price per Foot	Net Weight in Pounds	Feet of Chain Handled to Lift Load One Foot
$\frac{1}{2}$	\$35.00	8	\$0.90	54	21
1	45.00	8	.95	80	31
$1\frac{1}{2}$	60.00	8	1.00	124	35

SCREW HOISTS

(Duplex Type)

For work where the highest speed and efficiency are not required, we can furnish the Ford Duplex Type Worm Gear Hoist. This type of hoist is frequently preferred for portable use, as it is lighter in weight and at the same time powerful and durable.

DIFFERENTIAL HOISTS

This is the simplest of all chain hoists, and where a hoist is required but occasionally and high efficiency and speed are not essential, it serves the purpose admirably. The Ford Differential Hoist is made with exceeding care and of the best material obtainable.

ROLLER BEARING STEEL PLATE TROLLEYS

We carry in stock ready for immediate shipment, a line of Roller Bearing Steel Plate I-Beam Trolleys in a wide range of sizes, and in both the plain and geared types. Trolleys can be widened to suit larger than standard beams.

Send for a copy of our catalogue.
